Sexual Citizens: A Landmark Study of Sex, Power and Assault on Campus

WALKING WITH SURVIVORS: THE MASCULINITIES PROJECT

The Masculinities Project at UCSB invites you to meet two leading voices in the prevention of interpersonal violence on campus. Columbia professors Jennifer S. Hirsch and Shamus Khan lay out an empirically-grounded vision for campus sexual assault prevention. Hirsch and Khan approach sexual assault as a public health problem and recommend a shift in social power imbalances as a means of making lasting systemic change.

October 22 at 1pm-2pm

The authors will be interviewed followed by a panel discussion with UCSB Professor Tristan Bridges (Department of Sociology and Editor of Men and Masculinities) and Jacqueline Isero (Class of 2022, leader of research on UCSB's approach to sexual violence prevention).

Attend a thoughtful discussion on accountability and the prevention of campus sexual violence.

Register in advance for this meeting:
http://cglink.me/r831238
After registering, you will receive a confirmation email containing information about joining the meeting.

The mission of the Masculinities Project is to support men's commitment to the expression of healthy masculinities by increasing men's engagement in interpersonal violence prevention with the goal of ending sexual assault.

Doors open 10 minutes before the event.

PRESIDENTIAL ELECTION 2020
